This Almanac has been compiled on behalf of the Amateur Athletic Union of Australia by Arthur Hodsdon and Kenneth Taggart with the assistance from the Ranking List Officers of the Members Associations.

AUSTRALIAN CHAMPIONSHIPS 1972-73

The 1972 20 Kilometres Road Walk Championship of Australia was held on 9th September 1972 at Jackadder Lake, Woodlands, a newly developed suburb 5 miles north of Perth, adjacent to Scarborough Beach Road. The course comprised thirteen laps of the lake boundary plus an additional 166 metres. The temperature varied between 69° and 78°, and an unpleasant north-westerly breeze caused some inconvenience to competitors.

The Marathon Championship of Australia was held from Richmond R.A.A.F. Base, New South Wales on the 16th September 1972. The basically flat course, which commenced and finished on the Base Sports Oval, was an out and back one over sealed roads skirting the Hawkesbury River to Windsor. The weather conditions were not conducive to good Marathon running. A north-easterly breeze of from 10 to 14 miles per hour blew during the afternoon and the temperature for most of the time was around 80°F.

The 1973 Track and Field Championships of Australia were conducted over three consecutive days, March 23rd to 25th, at the E.S. Merks Memorial Field, Moore Park, Sydney, New South Wales. The running tracks were of conventional cinders. On the second day, sprinters were hampered by a firm headwind. Conditions were better on the third day with relatively little wind but rather low temperatures for the time of year.

AUSTRALIAN INTERNATIONAL RECORDS

At its 1969 Annual Conference, the Amateur Athletic Union of Australia decided to create an official list of what are designated Australian International Records. An Australian International Record is one established under I.A.A.F. Rules in a country other than Australia by an athlete who was either born in Australia or who has resided in Australia for at least three years prior to the date of the performance claimed as a record, provided that such performance must be equal or superior to the corresponding Australian National Record.

AUSTRALIAN RANKING LISTS FOR 1972-73

The listings which follow cover the period from April 1st, 1972 to March 31st, 1973. Wind assisted performances in the events referred to in I.A.A.F. Rule 148 (4)(g), have been as far as possible excluded.

Each list shows the Ten Best Performances in the event. The number of individual athletes may thus vary from one to ten; or possibly more. Sufficient further individual performances are listed to bring the number of athletes to (in most cases) at least twenty. Thus each list shows the Ten Best Performances and the Twenty (in some cases Ten) Best Performers in the event.

In those cases where a Record Performance, other than one coming within the Ten Best Performances, has been later equalled during the period by the same athlete, only the Original Performance has been listed.

Last year's procedure of converting actual times for English distances to theoretical times for the corresponding metric distances has been maintained, because it is felt that in this way a more significant picture of our depth in these events, and of the trend of our standards, is obtained. The conversion formula adopted for each brace of events to achieve the desired consolidation is explained in short headnotes as required. Derived metric times are followed in each case, in parenthesis, by the actual time for the English distance from which the derived time has been calculated. This latter procedure has not been followed, however, in the case of those events where a uniform conversion factor is applied to all of the times.
